

TERMS OF REFERENCE
For Overseas Procurement – Provision of Exhibition Services
for the Digital Interactive Enhancements and Activations
at the Philippines Pavilion at Expo 2020 Dubai

Background:

The Philippines Participation in Expo 2020 Dubai has generated over 100,000 visitors for its first month of its operations and is expecting an increase in visitors by both foreign and local based in Dubai, due to the incoming winter season and the easing of travel restrictions worldwide.

The Philippines Expo Secretariat conducted market scanning and initiated group discussions with avid visitors, vloggers/bloggers and content strategists to talk about actionable improvements that can be done in the Pavilion.

As a result of these consultative meetings, the Philippines Pavilion Secretariat decided to stage more events and activations to enliven the Pavilion grounds and implement digital immersive enhancements in certain areas to promote the use of Bangkokota’s digital platforms such as the Bangkokota Trivia Quest (Game Application) and Bangkokota Mobile Visitor App (Virtual Tour Guide).

Therefore, there is a need to conduct overseas procurement for the provision of exhibition services for the digital interactive enhancements and activations at the Philippines Pavilion at Expo 2020 Dubai.

Objective:

- To improve the overall interactivity at the Philippines Pavilion
- To enliven the outdoor spaces of the Philippines Pavilion and provide entertainment to both local and foreign visitors
- To increase visitor engagement through the promotion of the Philippines Bangkokota application: Bangkokota Trivia Quest (Game Application) and Bangkokota Mobile Visitor App (Virtual Tour Guide)

Scope of Work:

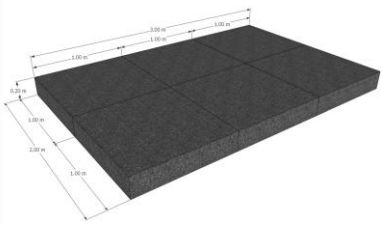

Bidders for this overseas procurement request must be based in Dubai, United Arab Emirates and can deliver the requirements on urgent basis following the Philippine Government Procurement rules and regulations or per RA 9184.

I. Digital Interactive Enhancements

Item	Qty	Description	Locations
