1	Supply, Delivery, Installation and Configuration of Data Warehouse Solution 1.0 BACKGROUND: The Department of Trade and Industry (DTI) seeks to establish a centralized Data Warehouse to enhance data integration, transparency, and real-time economic monitoring. This initiative will consolidate data from multiple sources, providing actionable insights and supporting informed decision-making. By eliminating data silos and improving interoperability, the Integrated Data Warehouse will enhance accessibility across DTI's bureaus. Advanced analytics, AI, ML, and BI tools will enable predictive modeling, trend analysis, and real-time monitoring for proactive policy interventions. The data warehouse must be deployed exclusively on-premise in accordance with DICT Circular No. 010, Series of 2020. Section 6.2.4.2 provides exceptions for systems requiring higher levels of control, security, or performance. The DTI's warehouse processes sensitive and critical economic and trade data requiring local hosting for security, operational control, and latency. 2.0 OBJECTIVES: The primary objective of this project is to upgrade the existing data warehouse to a secure, scalable, high-performance and on-premise environment that supports modern analytics and real-time decision-making. The key features include: • Support for multi-model data handling (relational, JSON, spatial, graph) using a single database engine • In-memory processing for real-time analytics • Transparent data compression and automated storage optimization • Advanced workload management for business-priority queries • Parallel processing and high-concurrency support	<i>[Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate.
