Turnover of Zamboanga City State Polytechnic College and ZamPen FabLab of the 90 Face Shield to Zamboanga Medical City

The ZamPen FabLab and Zamboanga City State Polytechnic College is now producing face shields to be distributed to the medical and non-medical frontliners as protection for the coronavirus disease 2019 (COVID-19).

Aside from the face shields, the fablab is also producing isolation/intubation boxes which are used for treating patients infected with COVID-19 and provide additional protection for the doctors and nurses.

As of this moment, a total of 210 face shields have been distributed to different organizations/frontlines in Zamboanga City

The initiative was being undertaken through the joint efforts of the DTI, Zamboanga City State Polytechnic College and medical practitioners.
