

DTI – Cotabato Satellite Office
SSF Malasakit Story
March 26, 2020

Moving Forward for Quality Life Association is a Shared Service Facility (SSF) beneficiary of the Department of Trade and Industry – Cotabato City. DTI had provided them with machineries and equipment that are well-moored to their needs. Over the years, such had grown into a more productive association that specializes on making uniform and polo shirts, and recently ventured to producing face masks. Having members that are skilled and trained through time, the association built up its name and reputation as an association that ensures that their crafts that are of good quality.

Due to the emergence of the Corona Virus Disease (COVID-19), the association had seen the opportunity (amid the dilemma) to produce masks to cater the need of the community. In relation, DTI-Cotabato took the opportunity to be of help to the community and to the front liners, and put forth efforts to link the association to institutional buyers such as the Cotabato Regional and Medical Center. Currently, the association is on board to talk with the institutional buyers about the possibility of making customized Personal Protective Equipment (PPE) and face masks for the front lines of CRMC.
