APPLICATION FLOWCHART:

ISO 21001, Educational Organization Management Systems (EOMS), is a published international standard by the International Organization for Standardization, released on May 1, 2018. It is intended to provide a common management tool for organizations providing educational products and services capable of meeting learner and other beneficiary needs and expectations and it focuses on the specific interaction between an educational organization, the learner, and other relevant interested parties.

ISO/TS 21030:2023 has been developed to assist in the certification of EOMS that fulfills the requirements of ISO 21001. The contents of this document can also be used to support certification of EOMS that are based on other sets of specified EOMS requirements.
