4. Processing of Import Commodity Clearance (ICC)

The issuance of Import Commodity Clearance (ICC) is considered a **HIGHLY TECHNICAL** transaction. Under Sec. 9 b1 of RA 11032, highly technical transactions shall be acted upon by the assigned officer/employee within 20 working days, excluding product inspection and testing period. If the Import Commodity Clearance is not released within the prescribed time, you may file a complaint via email (artaunit@dti.gov.ph).

ICC Certificate is issued to an importer whose imported products have shown conformance to relevant standards through inspection, verification, and product testing by the BPS Recognized Testing Laboratories. Application for Import Commodity Clearance is available online through the Product Certification Information Management System (PCIMS).

Applicants are encouraged to apply online. All applications are processed and corresponding certificates are issued within 16 working hours. However, inspection and testing time are not included in “processing time” since they vary depending on the product being tested. Applications are then processed for another 16 working hours after the submission of inspection and audit reports.
