UPCOMING STRATEGIC TRADE MANAGEMENT AWARENESS FORUM

STMO CONDUCTS OUTREACH IN HCSA

The STMO conducted an awareness session with members of the Honda Cars Suppliers Association last July 11, 2019. The event was moderated by the association's president, Mr. Vic Petalino. The topics focused on the fundamentals for complying with the STMA: STMA Overview, Commodity Classification, Registration and Authorization, and Internal Compliance Program.

The program featured an open forum - an avenue for the participants to raise concerns on the implementation of the STMA. Most of the questions raised were about registration and licensing. This awareness session is geared towards preparing the industry stakeholders for the registration phase on the fourth quarter of 2019.
