The Department of Trade and Industry-Human Resource and Administrative Service (DTI-HRAS) officially announced the launch of the 2023 Employee Experience Survey (EES) to measure employee satisfaction during the flag raising ceremony held via Zoom on 18 March 2024.

EES is based on the Trust Index Model (TIM) centered on five focus areas namely: pride, camaraderie, credibility, respect, and fairness. With the theme “Ugnayan,” the 2023 EES is considered a first step towards creating a work environment where people are heard and able to freely express their feedback to the organization.

To further motivate the DTI family, the first three (3) offices to achieve a 100% response rate will be given a free wellness and organizational culture activity.

Led by the DTI Academy, the survey will run from 20 March 2024 until 5 April 2024, covering the period January to December of the previous year.

For further information and inquiries on EES, you may reach out to **DTIAcademy@dti.gov.ph**.
